

How to set up Facebook

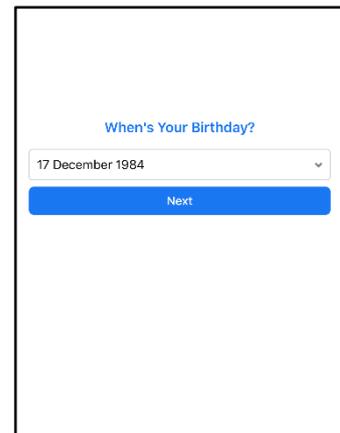

Step 1:
Download the **Facebook** app.

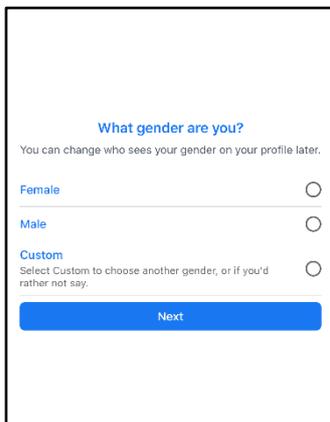

Step 2:
Sign in if you have a **Facebook** account.
Click [Create New Account](#) if you don't.

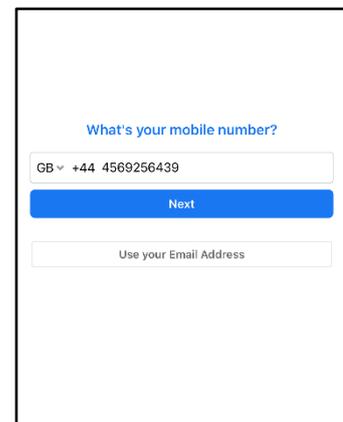

Step 3:
Type in your full name.

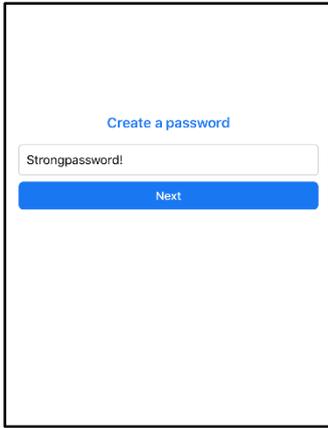

Step 4:
Select the date you were born.

Step 5:
Select your gender.

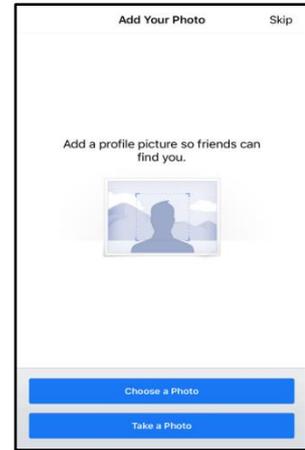

Step 6:
Type in your mobile number or
your e-mail address.

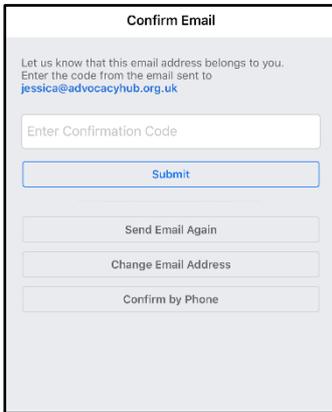

Step 7:

Create a **strong password** (see our Staying Safe Online information).

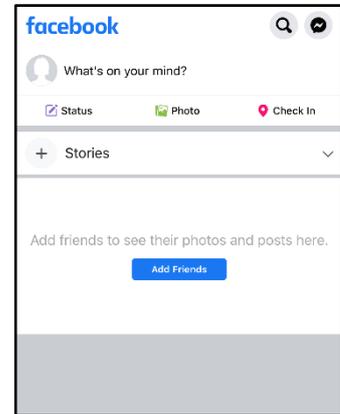

Step 8:

Choose your profile picture for your friends to see.

Step 9:

Check your texts or e-mails for your code from Facebook. Type this into the box.

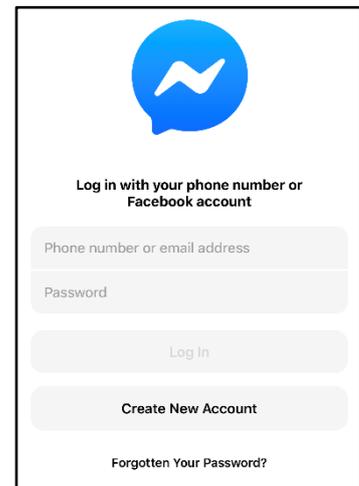

Step 10:

Your profile has been created! Your homepage will look like this.

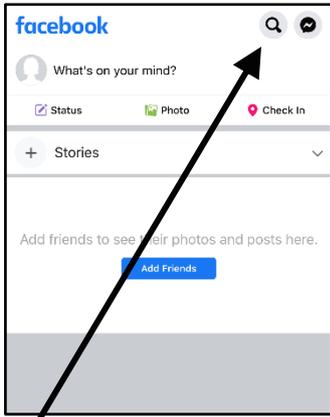

Step 11:

You will need to download **Facebook Messenger**.

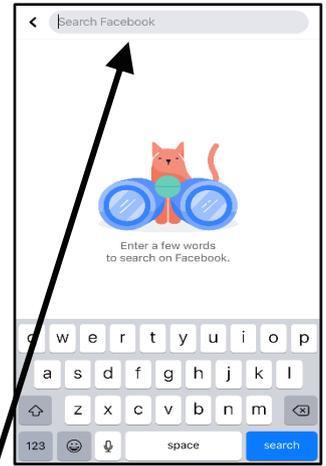

Step 12:

Sign in with your details you just made your **Facebook** account with.

Step 13:

You can search for people who you want to connect with (start chatting).

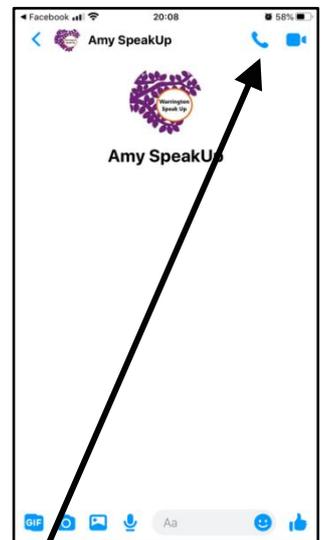

Step 14:

Type in the person's name you want to connect with (start chatting).

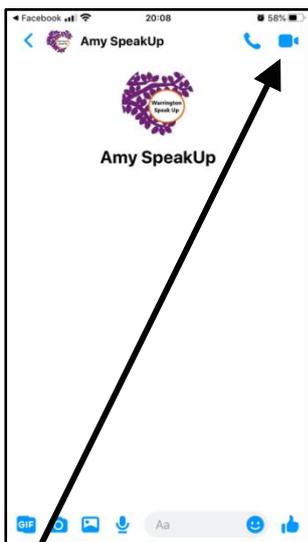

Step 15:

When you are someone's profile, you can click on the **Messenger** button to start chatting.

Step 16:

You can now **voice call** your friends and family.

Step 17:

You can also **video call** your friends and family.

Step 18:

You can also **type a message** to your friends and family.
